Dear Mr. Shepherd:

Re: Request for Release of Reclamation Bonds
Straight Creek Mine, M/017/108
Hillside Complex Mines, M/037/015
Sahara Mine, ACT/015/026
Patti Ann Mine, ACT/037/003
Far West Mine, ACT/037/019
Standard II Mine, M/037/011
Betty Mine, S/037/057

DIVISION OF
OIL GAS & MINING

Pursuant to our phone conversation last week, please accept this letter as our formal request for total or partial release of the bonds covering certain mine sites in Utah, as follows:

Straight Creek Mine, M/017/108; Bond 610 170542, \$1,050

Total release is requested for the Straight Creek Mine site. Total reclamation was done over three years ago and full revegetation has been accomplished.

Hillside Complex Mines, M/037/015; Bond 610 159333, \$2,460

Total release is requested for the Hillside Complex Mines. Full reclamation was originally done in 1988 and revegetation has been accomplished, as you verified by personal inspection this year.

Sahara Mine, ACT/015/026; Bond 610 052904, \$35,923
Patti Ann Mine, ACT/037/003; Bond 610 165011, \$23,800
Far West Mine, ACT/037/019; Bond 610 165012, \$35,300
Standard II Mine, M/037/011, \$1,300

A partial release of these bonds, releasing 80% of the current bond amount, is requested to reflect that full reclamation was done this past year, as you verified by personal inspection this past summer. The 20% would be retained for approximately three years to cover revegetation pursuant to BLM guidelines.

Betty Mine, S/037/057, Bond 610 17393, \$335

It is my understanding that you have this bond recorded in your files, although the obligee under the bond is the Manti-LaSal National Forest. Full reclamation was completed many years ago and has been favorably inspected by the Forest Service several times in the past in response to Energy Fuels' request for a release; however, personnel changes have delayed obtaining a formal release from the Forest Service. Please accept this letter as our formal request for the State of Utah to release this property and bond. Any assistance you could offer in obtaining the release of this bond by the Forest Service would also be appreciated.

Please address your release and partial release authorization letters to my attention at the Denver offices of Energy Fuels, with a copy to Roger Smith at the Kanab office. Please return the originals of the released bonds to me. I will obtain reduction of the bonds on properties being partially released.

If you have any questions regarding the bonds, please contact me at (303) 899-4478; and if you have any questions regarding the reclamation work or sites, please contact Mr. Smith at (602) 643-7321.

Thank you in advance for your prompt attention to this matter.

Very truly yours,

Vicki L. Hoffseitz
Land Records Administrator
